

Accelerated Pathway to Mission Outcomes

Streamlining access to proven, value-driven solutions

Who We Are

Diné Development Corporation (DDC) delivers IT, engineering, and professional services at mission speed, enabling government agencies to rapidly deploy capabilities to solve their most critical challenges. As a family of companies, we offer streamlined access to proven solutions through efficient acquisition pathways that accelerate delivery and maximize impact.

At the heart of DDC is a bold commitment to innovation. Our teams deploy proven Solution Accelerators that empower agencies to rapidly implement technology enablers and achieve measurable outcomes. By integrating these accelerators with scalable delivery models, DDC drives value across the mission lifecycle.

Solution Delivery at Mission Speed

As agencies advance critical objectives, DDC offers a ready pathway to sustain mission momentum. By leveraging SBA 8(a) procurements, customers rapidly gain access to our teams' solutions, enabling organizations to accelerate delivery and implement capabilities efficiently while maximizing operational confidence.

Direct Award Contracting

- DOW agencies can sole source up to \$100M in value without J&A [DFARS 206.104-70 (a)]
- Civilian agencies can sole source up to \$30M in value without J&A [FAR 19.208-2 (a) (1)]

Efficient Procurement Cycles & Non-Protestable Awards

- Avoid delays from complex evaluations and protests to enable efficient procurement timelines (13 CFR 124.517)

Direct Negotiations

- Ability to negotiate directly with our companies to ensure fair and reasonable pricing [13 CFR 124.503(c)(2)]

SBA 8(a) Sole Source Process

- 1** Contracting Office identifies qualified 8(a) firm, establishes requirements, and sends offer letter to SBA stating intent to issue an 8(a) sole source award
- 2** SBA accepts requirements and authorizes negotiations with the 8(a) firm within 10 business days or less
- 3** Contracting Office issues solicitation, and 8(a) firm submits proposal
- 4** Contracting Office performs technical and price evaluation and negotiates agreement terms with the 8(a) firm
- 5** Contracting Office prepares contract package for 8(a) firm and coordinates final required SBA actions
- 6** Contracting Office awards contract within 30 days or less

DDC Solution Accelerators

Accelerating Transformation. Empowering Missions.

Our Solution Accelerators leverage proven industry frameworks and open architectures to expedite your digital transformation journey. Rather than employing off-the-shelf products, we integrate battle-tested

capabilities into our delivery teams tailored to our customers' missions. By leveraging open-source, cloud-native technologies, we help you avoid vendor lock-in while advancing sustainable, mission-driven outcomes.

Generative Optimization & Modernization Engine (GENOME)

Simple Data Mesh Architecture (SDMA)

Turnkey Security & Landing Zone Architecture (TKSA/LZA)

MDACA Data Fabric Suite (MDACA DFS)

Synthetic Data Engine (SDE)

AI App Factory

DDC SOLUTION ACCELERATORS

GENOME *Generative Optimization and Modernization Engine*

AI-driven approach to legacy system modernization, leveraging Large Language Models' enhanced Test-Driven Development to accelerate, optimize, and de-risk the transition from outdated architectures to modern, maintainable

SDMA *Simple Data Mesh Architecture*

Cloud-native, serverless, multi-tenant analytics-as-a-service solution that commoditizes data platform capabilities, transforming complex analytics into self-service tools, empowering users to seamlessly analyze and visualize data

TKSA/LZA *Turnkey Security and Landing Zone Architecture*

Multi-tenant, cloud-native security and automation framework designed to rapidly deploy secure, compliant environments, providing a governance- driven, Zero Trust-compliant security architecture for workloads at Impact Levels 4, 5, and 6

MDACA DFS *Multiplatform Data Acquisition, Collection, and Analytics Data Fabric Suite*

Secure, unified, modern data fabric suite that provides centralized near real-time acquisition, routing, transformation, storage, and single-view access to enterprise-wide data, driving informed decision-making and operational efficiency

SDE *Synthetic Data Engine*

Open-source, cloud-native platform that generates intelligent, synthetic data while preserving the privacy of sensitive information, empowering organizations to securely share data without compromising utility or confidentiality

AI App Factory

End-to-end, AI-enabled delivery pipeline that transforms stakeholder intake and authoritative artifacts into a structured AppDNA blueprint and then accelerates delivery of secure, scalable, accessible applications through AI-assisted development and CI/CD

Areas of Expertise

IT & Engineering Solutions

- Cloud Adoption
- Data Enablement
- Digital Transformation
- Artificial Intelligence
- Modern Software Development
- Cybersecurity
- IT Service Management
- Engineering Services
- Testing Services

Professional Services

- Program/Portfolio Management
- Acquisition Support Services
- Financial and Budget Management
- Administration Support Services
- Environmental Compliance Management
- Natural & Cultural Resource Management

The DDC Difference

-  **Customer-First Approach:** Prioritize mission success by rapidly delivering quality-driven solutions that meet customer needs through outcome-driven performance
-  **Solution-Driven Innovation:** Harness formalized innovation capabilities, fusing people, process, and technology to engineer solutions that deliver measurable impact
-  **Mission-Centric Agility:** Align operational excellence with scalable delivery, enabling organizations to quickly adapt as missions evolve and requirements shift
-  **Future-Ready Delivery:** Deploy future-ready solutions designed for long-term scalability and sustainability, optimizing speed, cost-effectiveness, and operational resilience
