

Procurement Efficiency Powered by Mission-First Innovation

Who We Are

Diné Development Corporation (DDC) accelerates mission success by delivering IT, engineering, professional, and environmental solutions through streamlined acquisition pathways. As a Tribally owned family of companies, we simplify procurement to enable federal agencies to optimize delivery and amplify impact.

At the heart of DDC is a bold commitment to innovation. We fuse legacy-inspired ingenuity with operational agility to solve complex challenges for defense, civilian, and healthcare clients worldwide. Our approach integrates proven Solution Accelerators with scalable delivery models that drive value across the mission lifecycle.

DDC is more than a solutions provider. We are a purpose-driven partner dedicated to progress. Our work fuels long-term economic growth for the Navajo Nation while enabling greater outcomes for the communities our clients serve.

Fast-Track Contracting Solutions

Overcoming Procurement Challenges with Confidence

As agencies face challenges in executing planned FY25 awards, DDC offers a ready pathway to maintain mission momentum. By leveraging Tribal 8(a) procurements, clients can readily access the skills and expertise of our companies while accelerating the acquisition process—minimizing procurement delays while maximizing delivery confidence.

Direct Award Contracting

- DOD agencies can sole source up to \$100M in value without J&A [DFARS 206.303-1(a)]
- Civilian agencies can sole source up to \$25M in value without J&A [FAR 19.808-1(a)]

Efficient Procurement Cycles & Non-Protestable Awards

- Avoid delays from complex evaluations and protests to enable efficient procurement timelines (13 CFR 124.517)

Direct Negotiations

- Ability to negotiate directly with our companies to ensure fair and reasonable pricing [13 CFR 124.503(c)(2)]

Tribal 8(a) Sole Source Process

- 1** Contracting Office identifies qualified 8(a) firm. Establishes requirements and starts discussions. Sends Letter of Intent to sole source to SBA
- 2** SBA accepts requirements and issues Authorization to Negotiate with 8(a) firm within 5 days
- 3** Contracting Office issues RFP and 8(a) firm submits proposal
- 4** Contracting Office performs technical and price evaluation, Negotiates technical scope, price, and deliverables with 8(a) firm
- 5** Contracting Office prepares contract and submits to SBA CO, SBA, and 8(a) firm accept terms and agreements
- 6** Contracting Office awards sole source contract within 30 days

DDC Solution Accelerators

Accelerating Transformation. Empowering Missions.

Our Solution Accelerators leverage proven industry frameworks and open architectures to expedite your digital transformation journey. Rather than employing off-the-shelf products, we integrate battle-tested

capabilities into our delivery teams tailored to our clients' missions. By leveraging open-source, cloud-native technologies, we help you avoid vendor lock-in while advancing sustainable, mission-driven outcomes.

DDC SOLUTION ACCELERATORS

GENOME *Generative Optimization and Modernization Engine*

AI-driven approach to legacy system modernization, leveraging Large Language Models' enhanced Test-Driven Development to accelerate, optimize, and de-risk the transition from outdated architectures to modern, maintainable environments

SDMA *Simple Data Mesh Architecture*

Cloud-native, serverless, multi-tenant analytics-as-a-service solution that commoditizes data platform capabilities, transforming complex analytics into self-service tools, empowering users to seamlessly analyze and visualize data

TKSA/LZA *Turnkey Security and Landing Zone Architecture*

Multi-tenant, cloud-native security and automation framework designed to rapidly deploy secure, compliant environments, providing a governance- driven, Zero Trust-compliant security architecture for workloads at Impact Levels 4, 5, and 6

MDACA DFS *Multiplatform Data Acquisition, Collection, and Analytics Data Fabric Suite*

Secure, unified, modern data fabric suite that provides centralized near real-time acquisition, routing, transformation, storage, and single-view access to enterprise-wide data, driving informed decision-making and operational efficiency

SDE *Synthetic Data Engine*

Open-source, cloud-native platform that generates intelligent, synthetic data while preserving the privacy of sensitive information, empowering organizations to securely share data without compromising utility or confidentiality

MEIM *MissionEdge Innovation Model*

Structured, transparent, ISO 56000-aligned framework that employs stage-gate reviews to integrate mission-centric innovation into program operations, facilitating real-time collaboration and informed decision-making

Areas of Expertise

Enterprise IT & Engineering Solutions

- Cloud Adoption
- Digital Modernization
- Modern Software Development
- Data Enablement
- Cyber Security
- IT Service Management
- Artificial Intelligence
- Engineering Services

Professional & Environmental Services

- Program/Portfolio Management
- Acquisition Support Services
- Financial and Budget Management
- Technical Support
- Administration Support Services
- Environmental Compliance
- Natural Resource Management
- Cultural Resource Management

The DDC Difference

-  **Customer-First Approach:** Prioritize mission success by building customer loyalty through trust, transparency, and outcome-driven performance
-  **Solution-Driven Innovation:** Established innovation as a formal business capability, fusing people, process, and technology to engineer solutions that deliver impact
-  **Mission-Centric Agility:** Align operational excellence with scalable delivery, built to adapt as missions evolve and requirements shift
-  **Future-Ready Delivery:** Deliver future-ready solutions designed for long-term scalability and sustainability, optimizing cost effectiveness and operational resilience
